

SOHAN MANDAL

+91 9830322351 | sohanmandal1611@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | Kolkata, India

EDUCATION

Kalinga Institute of Industrial Technology (KIIT)

Aug 2024 – Jun 2028

B.Tech, Computer Science and Engineering · CGPA: **8.64 / 10.0** · Bhubaneswar, Odisha

TECHNICAL SKILLS

Languages	C, Java, Python
Tools & Platforms	Git, GitHub, Vercel, Google Cloud Run, AntigraVity
Areas of Interest	Artificial Intelligence, Data Architecture, Cybersecurity, Full Stack Development (using AI Tools)
Currently Learning	Data Structures & Algorithms (DSA), Data Architecture, Artificial Intelligence, Cybersecurity, Full Stack Development (using AI Tools)

PROJECTS & CONTRIBUTIONS

Apex Intel | [GitHub](#) | *In Progress*

Tech Stack: Next.js, FastAPI, PostgreSQL, OpenAI GPT-4o, Pydantic

- Built an autonomous multi-agent due diligence platform that analyzes startups and generates structured investment memos.
- Developed AI-powered workflows for market research, competitor analysis, risk assessment, and investment scoring.
- Designed a professional analytics dashboard for startup evaluation, report management, and comparison workflows.

Reality Drift | [GitHub](#) | [Live Demo](#)

Tech Stack: Next.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Gemini AI

- Built an AI-powered life pattern simulator that analyzes habits and predicts future behavioral trends.
- Developed a full-stack application integrating Gemini AI to generate personalized simulations and coaching insights.
- Created interactive analytics dashboards and deployed frontend and backend services on Vercel.

CERTIFICATIONS

Build with AI Certification — *GeeksforGeeks*

- Successfully completed the Build with AI Program focused on practical AI application development and implementation.

Data Structures & Algorithms (DSA) — *GeeksforGeeks*

- Certification in progress — certificate will be available upon successful completion.

Generative AI — *GeeksforGeeks*

- Certification in progress — certificate will be available upon successful completion.

Data Architecture — *Coursera*

- Certification in progress — certificate will be available upon successful completion.

ACHIEVEMENTS & LEARNING

- Completed the Build with AI Certification by GeeksforGeeks, demonstrating practical AI development proficiency.
- Maintained a CGPA of 8.64 / 10.0 in B.Tech Computer Science and Engineering at KIIT.
- Built and deployed AI-powered software products using modern web technologies and cloud platforms.
- Actively exploring Artificial Intelligence, Data Architecture, Cybersecurity, and AI-assisted Full Stack Development.
- Continuously improving problem-solving skills through Data Structures & Algorithms (DSA) practice.
